SUMMARY

I am a highly motivated Frontend & MERN Stack Developer with strong expertise in building responsive, scalable, and optimized web applications. I have hands-on experience with React.js, Node.js, MongoDB, and Express.js and a keen focus on real-world project development. I leverage AI tools to enhance my work and am always eager to explore new technologies and improve workflows.

EDUCATION

Information Technology - Graduate

University of Southern Punjab Multan

⌚ 2021 - 2025

EXPERIENCE

MERN Stack Intern at - Inbound Agency Multan

Internship

⌚ 08/2025 - 11/2025

MERN Stack Intern

- Worked primarily on React.js and MERN concepts
- Gained hands-on experience with component development, API integration, backend routing, authentication, and database operations

SKILLS

Gmail	GitHub	React	Node.js	MongoDB	Express.js	HTML	JavaScript	ES6+
React Hooks	React Router	Tailwind	JSX	REST	Middleware	JWT	MVC	Mongoose
Visual Studio Code	Postman	Clean Code	Fast Learner					Git

PROJECTS

Multiple Projects

⌚ 08/2025 - Present

Various web applications developed using modern web technologies

- Real-time exchange rate calculator using public APIs, optimized UI, state management, and error handling
- Generates secure passwords with dynamic length, special characters, copy-to-clipboard feature, and mobile responsive UI
- Fetches real-time weather data, detailed UI with temperature, humidity, search functionality, and error states
- Full CRUD functionality using React, reusable components, optimistic UI updates, localStorage integration
- Authentication system, blog creation, image upload, role-based access control, dynamic routing
- Shopping cart, product filters, authentication, admin dashboard, and secure API architecture

KEY ACHIEVEMENTS

Enhanced API Security

Optimized React Code

Integrated Third-Party APIs

Created Reusable Components

INTERESTS

Full-Stack Development

Passionate about full-stack development and exploring new technologies
